CLIMATE NEUTRAL NOW

**”** *I am concerned about the serious risks that climate change poses for present and future generations.*

With my signature I agree to take the following actions:

 I promise to do my best to reduce the greenhouse gas emissions caused by me and to cut my personal climate footprint by half within ten years or faster.

Sign now!

 To achieve the target, I will pay attention to the climate footprint of my energy use, travelling, eating and consumption habits, electronic devices and household appliances as well as my financial savings. I will make low-carbon choices wherever possible.

CALCULATE

 I pledge to consider addressing my unavoidable climate footprint by offsetting emissions which I cannot reduce, to become climate neutral now.

CLIMATE NEUTRAL NOW

 I will share my experiences in making cleaner choices with my family, friends and colleagues and encourage them to sign the pledge, too.

By signing the Climate Pledge I'm sending a message to the decision makers, companies and to all levels of society, to implement ambitious policies and practices which prevent the harmful effects of climate change and to secure the living conditions of mankind, as promised in the Paris Climate Change Agreement.

# Voluntary Cancellation Platform

Working together to facilitate action

The screenshot shows the homepage of the United Nations Carbon Offset Platform. The header includes the UN logo, the text "United Nations Carbon offset platform", and links for "Log in" and "Register". Below the header is a navigation menu with links: "About offsetting", "How to offset", "UN certification", "Projects", "Contributors", and "FAQ". A search bar is present with the placeholder text "Search for Project ID, industry, co-benefits". The main content area features a large banner with the text "Take climate action by supporting green projects" and a sub-header "Calculate your CO<sub>2</sub> emissions". Below the banner, there is a section titled "Projects by UN region" with three map icons: "ASIA" (27 projects), "AFRICA" (2 projects), and "LATIN AMERICA & THE CARIBBEAN" (11 projects).

The screenshot shows the "What's your Climattitude?" section of the United Nations Carbon Offset Platform. The header is identical to the previous screenshot. Below the header is a large illustration of five cartoon characters representing different climate-related concepts: a sun, a water drop, a green plant, a grey cloud, and a blue cloud. The section title "What's your Climattitude?" is followed by a question: "1. Many elements of our everyday lifestyles that impact our climate. What is your climate weakness?". Below the question are four radio button options: "Food: I admit that I don't really think about how my eating habits impacts the climate.", "Comfort: I like being able to change the thermostat to cool my home down or heat it up at will.", "Local transport: I would rather drive my car because it is often faster.", and "Vacation: I do care about the climate but when I am on vacation, I like to travel around the world by plane." At the bottom, there is a red text prompt: "Please provide an answer to this question!"

The screenshot shows the "Projects by impact" section of the United Nations Carbon Offset Platform. The header is identical to the previous screenshots. Below the header is a section titled "Projects by impact" with three columns: "ENVIRONMENTAL", "SOCIAL", and "ECONOMIC". Each column has a representative image and a list of project categories with their respective counts. The "ENVIRONMENTAL" column includes "Air" (15), "Land" (3), and "Natural resources" (18). The "SOCIAL" column includes "Education" (1), "Health & Safety" (5), "Jobs" (24), and "Welfare" (17). The "ECONOMIC" column includes "Balance of payments" (3), "Energy" (4), "Growth" (19), and "Technology" (10).

The screenshot shows a section of the United Nations Carbon Offset Platform displaying various project categories. The categories are arranged in two rows of four. The top row includes "Wind", "N2O", "Biogas energy", and "Biomass energy". The bottom row includes "EE households", "Agriculture", "Fossil fuel switch", and "Hydro". Each category is represented by a small image and a text label.
